## **Semperit statement on the Deforestation Regulation (EU) 2023/1115**

Dear business partner,

the European Deforestation Regulation (EU-DR) prohibits the import into, export from or sales of products on EU market that do not comply with its requirements. Based on today's status of the [Regulation \(EU\) 2023/1115](#) and associated published FAQ, natural rubber used in selected Semperit products falls within the scope of the regulation (see Annex I of Regulation (EU) 2023/1115)) and is hence subject to the due diligence obligation.

We confirm that products supplied to our customers that contain natural rubber and fall into the scope of the EU-DR will be compliant after the regulation becomes applicable on December 30<sup>th</sup> 2025, making sure that imposed environmental and human rights laws and regulations of the natural rubber producing country are respected.

For products containing natural rubber and produced past the application date of the EU-DR and fall into the scope of the EU-DR, we will provide the concerned customers with the reference number [EU-DR Information System](#). With this number, customers can access the due diligence statement for the supplied product. All relevant confirmations and documents will be available in the EU-DR Information System under the reference number, but won't be provided separately or in advance.

If you have any further questions in the meantime, please don't hesitate to contact your Semperit Account or Product Manager.

Please note that this statement is valid until December 30<sup>th</sup> 2025 at the latest.
